FORM 2
MCH BUDGET DETAILS FOR FY 2006

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: GA

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])
Of the Federal Allocation (1 above), the amount earmarked for:

\$ 17,348,033

A.Preventive and primary care for children:

\$ 8,278,740 (47.72%)

B.Children with special health care needs:

\$ 8,142,710 (46.94%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 543,328 (3.13%)

(The above figure cannot be more than 10%)[Sec. 504(d)]

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 0

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 125,220,527

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 0

5. OTHER FUNDS (Item 15e of SF 424)

\$ 142,689,139

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 11,899,970

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 36,079,622

\$ 279,809,636

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 297,157,669

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 100,000

c. CISS: \$ 0

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 3,000,000

f. EMSC: \$ 150,000

g. WIC: \$ 163,609,660

h. AIDS: \$ 0

i. CDC: \$ 1,182,093

j. Education: \$ 13,973,505

k. Other: \$

GA Plan for Early Ch \$ 100,000

GADS \$ 50,000

Obesity \$ 788,590

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 182,953,848

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 480,111,517

Section Number: Main

Field Name: BirthOccurence

Row Name: Total Births By Occurence

Column Name: Total Births By Occurence

Year: 2006

Field Note:

In 2003, the number of births screened, based on data linkage was 94% of the total occurrent births. However, a sample was pulled of 100 babies from the births that didn't link. Out of these, 93% were screened, based on hospital records. Therefore, we estimate that the number of screened babies in 2003 is closer to 98%.

Year: 2004

Field Note:

In 2004, the Powerline received 15,526 calls. Over 50% of the Powerline callers were either African American or Hispanic. Over 25% of the callers were referred to dental care providers. The second highest request was for a WIC provider followed by requests for a general physician referral.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2006
[SEC. 506(A)(1)]
STATE: GA

1. State MCH Administration:
(max 2500 characters)

The Family Health Branch, part of the Division of Public Health, Department of Human Resources is Georgia's Title V agency. The charge of the Branch is promoting the health of the State's mothers and infants, women of childbearing age, children, adolescents, and children with special health care needs. The Branch works toward: 1) early and comprehensive health services to women of childbearing age and their infants in an environment that fosters personal dignity; 2) timely and comprehensive health services to children which promote optimal attainment of their individual abilities; and 3) comprehensive health services to adolescents in an environment that fosters personal responsibility, encourages independence, and promotes positive behaviors. To carry out these responsibilities, the Branch is involved in policy and planning activities, oversees the operations of various MCH programs in local health departments and other organizations, and provides technical assistance and training.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 17,348,033
3. Unobligated balance (Line 2, Form 2)	\$ 0
4. State Funds (Line 3, Form 2)	\$ 125,220,527
5. Local MCH Funds (Line 4, Form 2)	\$ 0
6. Other Funds (Line 5, Form 2)	\$ 142,689,139
7. Program Income (Line 6, Form 2)	\$ 11,899,970
8. Total Federal-State Partnership (Line 8, Form 2)	\$ 297,157,669

9. Most significant providers receiving MCH funds:

local health departments

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	133,540
b. Infants < 1 year old	135,671
c. Children 1 to 22 years old	334,921
d. CSHCN	11,279
e. Others	0

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:

(max 2500 characters)

Universal screening and assessment: FHB continues to coordinate the Children 1st system and has developed integrated intake and assessment tools for all FHB programs. Case management: DPH developed a model for Medicaid payment for case management for children enrolled in CMS effective July 2002. The model is based on levels of acuity and can be adapted for any public health program. CMS activities are based on HRSA recommendations for CSHCN. The model is being used for breast and cervical cancer in the Chronic Disease Program. FHB is initiating a coordinated effort to identify best practice approaches and program development in case management including outreach and referral, intake, assessment, and case management activities across the Branch.

b. Population-Based Services:

(max 2500 characters)

Nutrition health education: FHB continues to implement population-based nutrition services through coordination with all of FHB population teams. Partnerships have been developed to address emerging health issues such as obesity, breastfeeding, and physical inactivity. Oral Health: FHB provides school-linked dental prevention programs targeting high-risk elementary school children. Services may include fluoride rinse, dental sealants, prevention education and treatment services and provision of water fluoridation and monitoring for community water systems. The Universal Newborn Hearing Screening and Intervention Program (UNHSI): UNHSI maintains and supports a comprehensive, coordinated, statewide system to ensure that all newborns are screened for hearing loss prior to hospital discharge. The state also screens for 7 metabolic disorders and hemoglobinopathies. Through a partnership with DPH, March of Dimes, CDC and Emory University, the state can screen for up to 35 disorders (based on guidance from the Newborn Screening Advisory Committee) 7 days a week. Injury Prevention: A position has been established in the Office of Infant and Child Health to coordinate all safety issues within the FHB and to develop key partnerships with entities such as Child Fatality Review.

c. Infrastructure Building Services:

(max 2500 characters)

Obesity: FHB has convened statewide stakeholders and developed a draft plan to reduce obesity among all Georgia populations, including MCH. Middle childhood: In 2004, FHB began a review of issues of health and well-being of children ages five through nine years old. In October 2005, the Branch will convene stakeholders discuss the demographics of children in middle childhood and review significant health issues and systems issues that may impact health and well-being. Participants will help develop Georgia's plan for middle childhood. Organizational development: The Branch is beginning to incorporate Balanced Scorecard and other program management strategies to increase effectiveness and improve coordination of FHB services.

12. The primary Title V Program contact person:

Name	Rosalyn K. Bacon, M.P.H.
Title	FHB Director

13. The children with special health care needs (CSHCN) contact person:

Name	Eve Bogan
Title	Acting Team Leader, CSN

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

FORM NOTES FOR FORM 11

None

FIELD LEVEL NOTES

1. **Section Number:** Performance Measure #1
Field Name: PM01
Row Name:
Column Name:
Year: 2002
Field Note:
This is the first year that data has been reported in this format. Hence it is not possible to get data prior to 2002.
The three babies not treated had screened positive for hemoglobinopathies and were lost to follow up due to moves and changes in phone numbers.
2. **Section Number:** Performance Measure #2
Field Name: PM02
Row Name:
Column Name:
Year: 2002
Field Note:
The 2002 indicator is based on the State estimates from SLAITS. It is not possible to provide objectives for future years at this time. Objectives will be provided in the future after program data has been collected.
3. **Section Number:** Performance Measure #2
Field Name: PM02
Row Name:
Column Name:
Year: 2003
Field Note:
The data reported in 2002 have pre-populated the data for 2003 for this performance measure.
4. **Section Number:** Performance Measure #2
Field Name: PM02
Row Name:
Column Name:
Year: 2004
Field Note:
The data used is SLAITS data as this is the only population-based source data available in Georgia.
5. **Section Number:** Performance Measure #3
Field Name: PM03
Row Name:
Column Name:
Year: 2002
Field Note:
The 2002 indicator is based on the State estimates from SLAITS. It is not possible to provide objectives at this time. Objectives will be provided in the future after program data is collected.
6. **Section Number:** Performance Measure #3
Field Name: PM03
Row Name:
Column Name:
Year: 2003
Field Note:
The data reported in 2002 have pre-populated the data for 2003 for this performance measure.
7. **Section Number:** Performance Measure #3
Field Name: PM03
Row Name:
Column Name:
Year: 2004
Field Note:
The data reported in 2004 are pre-populated with the data from 2003 for this performance measure. It is not possible to provide objectives at this time. Objectives will be provided in the future after program data is collected.

The data used is SLAITS data as this is the only population-based source of data available to Georgia.
8. **Section Number:** Performance Measure #4
Field Name: PM04
Row Name:
Column Name:
Year: 2002
Field Note:
The 2002 indicator is based on the State estimates from SLAITS. It is not possible to provide objectives at this time. Objectives will be provided in the future after program data has been collected.
9. **Section Number:** Performance Measure #4
Field Name: PM04
Row Name:
Column Name:
Year: 2003
Field Note:
The data reported in 2002 have pre-populated the data for 2003 for this performance measure.
10. **Section Number:** Performance Measure #4
Field Name: PM04
Row Name:
Column Name:
Year: 2004
Field Note:
The data reported in 2004 are pre-populated with the data from 2003 for this performance measure. It is not possible to provide objectives at this time. Objectives will be provided in the future after program data is collected.

The data used is SLAITS data as this is the only population-based source of data available to Georgia.

11. **Section Number:** Performance Measure #5
Field Name: PM05
Row Name:
Column Name:
Year: 2002
Field Note:
The 2002 indicator is based on the State estimates from SLAITS. It is not possible to provide objectives at this time. Objectives will be provided in the future after program data has been collected.
12. **Section Number:** Performance Measure #5
Field Name: PM05
Row Name:
Column Name:
Year: 2003
Field Note:
The data reported in 2002 have pre-populated the data for 2003 for this performance measure.
13. **Section Number:** Performance Measure #5
Field Name: PM05
Row Name:
Column Name:
Year: 2004
Field Note:
The data reported in 2004 are pre-populated with the data from 2003 for this performance measure. It is not possible to provide objectives at this time. Objectives will be provided in the future after program data is collected.
- The data used is SLAITS data as this is the only population-based source of data available to Georgia.
14. **Section Number:** Performance Measure #6
Field Name: PM06
Row Name:
Column Name:
Year: 2002
Field Note:
Because only one of the States (Maine) met the NCHS standards for reliability for PM 6, the 2002 indicator is the national average except for Maine which has its State value noted.
It is not possible to provide objectives at this point. Objectives will be provided in future after program data has been collected.
15. **Section Number:** Performance Measure #6
Field Name: PM06
Row Name:
Column Name:
Year: 2003
Field Note:
The data reported in 2002 have pre-populated the data for 2003 for this performance measure.
16. **Section Number:** Performance Measure #6
Field Name: PM06
Row Name:
Column Name:
Year: 2004
Field Note:
The data reported in 2004 are pre-populated with the data from 2003 for this performance measure. It is not possible to provide objectives at this time. Objectives will be provided in the future after program data is collected.
- The data used is SLAITS data as this is the only population-based source of data available to Georgia.
17. **Section Number:** Performance Measure #7
Field Name: PM07
Row Name:
Column Name:
Year: 2002
Field Note:
Data for 2002 is not yet available. 2002 data will be provided in the 2005 Block Grant.
18. **Section Number:** Performance Measure #7
Field Name: PM07
Row Name:
Column Name:
Year: 2003
Field Note:
The data being survey data (The National Immunization Survey), it is not meaningful to report a numerator and denominator.
These data pertain to the period July 2002-June 2003, representing the Fiscal Year 2003
19. **Section Number:** Performance Measure #7
Field Name: PM07
Row Name:
Column Name:
Year: 2004
Field Note:
The data pertains to the period July 2003 - June 2004 for the immunization schedule 4:3:1:3:3:1. This data was reported in previous years for the 4:3:1:3:3 schedule. The Immunization Office has recommended that in the 2006 MCH Block Grant and thereafter, that the 4:3:1:3:3:1 scheduled be used.
20. **Section Number:** Performance Measure #8
Field Name: PM08
Row Name:
Column Name:
Year: 2002
Field Note:
2002 data is not available as yet. 2002 data will be provided in the 2005 Block Grant .
21. **Section Number:** Performance Measure #8
Field Name: PM08
Row Name:
Column Name:

Year: 2003

Field Note:

Data for 2003 is not yet available, this will be reported in the FY 2006 Block Grant.

22. Section Number: Performance Measure #8

Field Name: PM08

Row Name:

Column Name:

Year: 2004

Field Note:

These data are not yet available.

23. Section Number: Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2002

Field Note:

The numerator represents the number of 3rd grade children served by the Public Health Oral Health program and received protective sealants.

The denominator represents the number of 3rd grade children who were served by the Public Health Oral Health Program.

The data has been changed starting this year, to make both numerator and denominator refer to program data. In the past, the numerator referred to program data and the denominator was population data.

24. Section Number: Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2003

Field Note:

The data source was changed in 2002 to reflect school children served by public health only.

25. Section Number: Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2004

Field Note:

Data was collected by the Georgia 3rd Grade Oral Health Screening Survey managed by the State Oral Health Section, conducted locally (February/March 2005) with consultation and data analysis

provided by ASTDD. This is the first year for which a population-based estimate is provided. Because the data is survey data, a numerator and denominator are not provided.

26. Section Number: Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2002

Field Note:

Data is not available as yet for 2002. 2002 data will be provided in the 2005 Block grant.

The 2001 denominator is the same as the 2000 population because the Census Bureau did not produce estimates for 2001 or 2002.

27. Section Number: Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2003

Field Note:

Data for 2003 is not yet available, this will be reported in the FY 2006 Block Grant.

The denominator for 2001 has been updated with the 2001 population estimate.

28. Section Number: Performance Measure #10

Field Name: PM10

Row Name:

Column Name:

Year: 2004

Field Note:

These data are not yet available.

29. Section Number: Performance Measure #11

Field Name: PM11

Row Name:

Column Name:

Year: 2002

Field Note:

PRAMS data is not available for 2002.

30. Section Number: Performance Measure #11

Field Name: PM11

Row Name:

Column Name:

Year: 2003

Field Note:

data is from 2003 National Immunization Survey administered by CDC (13% of the sample was asked the breastfeeding question). PRAMS data had been reported in previous years but is not available for the years 2000, 2001 and 2002.

31. Section Number: Performance Measure #11

Field Name: PM11

Row Name:

Column Name:

Year: 2004

Field Note:

The latest data available is from the National Immunization Survey for 2003.

32. Section Number: Performance Measure #12

Field Name: PM12

Row Name:

Column Name:

Year: 2002

Field Note:

The denominator for 2002 is an estimate for occurrent births.

33. Section Number: Performance Measure #12**Field Name:** PM12**Row Name:****Column Name:**

Year: 2003

Field Note:

The denominator is a preliminary estimate of In-hospital occurrent births in Georgia in 2003. The denominator for 2002 has been updated with the final number.

34. Section Number: Performance Measure #13**Field Name:** PM13**Row Name:****Column Name:**

Year: 2002

Field Note:

Data for 2002 is not yet available. 2002 data will be provided in the 2005 Block Grant.

For 2001, data is a 3 year moving average from the Current Population Survey of the Census Bureau, because this is more accurate. In previous years we were presenting the current year estimate from the Current Population Survey.

35. Section Number: Performance Measure #13**Field Name:** PM13**Row Name:****Column Name:**

Year: 2003

Field Note:

The data are estimates from the March 2001-March 2003 Current Population Survey (CPS merged 3 year file) reflecting coverage for calendar years 2000-2002. Data is not available for 2003 at this time as this will be reported from the CPS for 2002-2004 which will be produced in September, 2004.

36. Section Number: Performance Measure #13**Field Name:** PM13**Row Name:****Column Name:**

Year: 2004

Field Note:

this data is not currently available.

37. Section Number: Performance Measure #15**Field Name:** PM15**Row Name:****Column Name:**

Year: 2002

Field Note:

data is not available for 2002 as yet. 2002 data will be provided in the 2005 Block Grant.

38. Section Number: Performance Measure #15**Field Name:** PM15**Row Name:****Column Name:**

Year: 2003

Field Note:

Vital Statistics data for 2003 is not available at this time and will be reported in the 2006 Block Grant.

39. Section Number: Performance Measure #15**Field Name:** PM15**Row Name:****Column Name:**

Year: 2004

Field Note:

This data is not available as yet.

40. Section Number: Performance Measure #16**Field Name:** PM16**Row Name:****Column Name:**

Year: 2002

Field Note:

Data are not available for 2002 as yet. 2002 data will be reported in the 2005 block grant.

The denominator for 2001 is the same as the Census 2000 population since the Census Bureau has not produced estimates for 2001 or 2002.

41. Section Number: Performance Measure #16**Field Name:** PM16**Row Name:****Column Name:**

Year: 2003

Field Note:

Vital Statistics data for 2003 is not available at this time and will be reported in the 2006 Block Grant.

42. Section Number: Performance Measure #16**Field Name:** PM16**Row Name:****Column Name:**

Year: 2004

Field Note:

These data are not currently available.

43. Section Number: Performance Measure #17**Field Name:** PM17**Row Name:****Column Name:**

Year: 2004

Field Note:

These data are not yet available.

44. **Section Number:** Performance Measure #18
Field Name: PM18
Row Name:
Column Name:
Year: 2002
Field Note:
Data are not available for 2002 as yet. 2002 data will be provided in the 2005 Block Grant.
45. **Section Number:** Performance Measure #18
Field Name: PM18
Row Name:
Column Name:
Year: 2004
Field Note:
These data are not available as yet.
46. **Section Number:** State Performance Measure #5
Field Name: SM5
Row Name:
Column Name:
Year: 2003
Field Note:
For FY 03 the measure is now calculated in the following manner: 1) Number of children identified out of 30% of the live births 2) Number of children assessed out of the number of children identified 3) Number of children referred to a primary health care provider out of number of children assessed.
47. **Section Number:** State Performance Measure #8
Field Name: SM8
Row Name:
Column Name:
Year: 2002
Field Note:
Data is not available for 2002 as yet. 2002 data will be provided in the 2005 block grant.
48. **Section Number:** State Performance Measure #8
Field Name: SM8
Row Name:
Column Name:
Year: 2003
Field Note:
For FY 03 this measure now includes data from the High Risk Infant Follow Up Program and the Childrens Medical Services Program. Data has been averaged for Quarters 2 and 3 for the HRIFU program and 2nd quarter data is used as the basis for estimating this number for the CMS program. Starting August 2004, estimates will be based on a randomly selected set of client records for CMS.
49. **Section Number:** State Performance Measure #9
Field Name: SM9
Row Name:
Column Name:
Year: 2003
Field Note:
Other supplemental funding sources did not support coalition building for FFY03, but has been restored for FFY04.
50. **Section Number:** State Performance Measure #10
Field Name: SM10
Row Name:
Column Name:
Year: 2004
Field Note:
These data are not yet available.

FORM 12
TRACKING HEALTH OUTCOME MEASURES
[SECS 505 (A)(2)(B)(iii) AND 506 (A)(2)(A)(iii)]
STATE: GA

OUTCOME MEASURE # 01

The infant mortality rate per 1,000 live births.

<u>Annual Objective and Performance Data</u>					
	2000	2001	2002	2003	2004
Annual Performance Objective	8.4	8.4	8.3	8.3	8.2
Annual Indicator	8.5	8.5	8.9	8.5	NaN
Numerator	1,125	1,141	1,188	1,153	0
Denominator	132,286	133,468	133,285	135,831	0
Is the Data Provisional or Final?				Provisional	Provisional

<u>Annual Objective and Performance Data</u>					
	2005	2006	2007	2008	2009
Annual Performance Objective	8.2	8.1	8.1	8	8
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

OUTCOME MEASURE # 02

The ratio of the black infant mortality rate to the white infant mortality rate.

<u>Annual Objective and Performance Data</u>					
	2000	2001	2002	2003	2004
Annual Performance Objective	2.4	2.2	2.1	2	2
Annual Indicator	2.3	2.1	2.1	2.2	NaN
Numerator	13.7	13.2	13.7	13.8	0
Denominator	6	6.2	6.6	6.2	0
Is the Data Provisional or Final?				Final	Provisional

<u>Annual Objective and Performance Data</u>					
	2005	2006	2007	2008	2009
Annual Performance Objective	2	1.9	1.9	1.8	1.8
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

OUTCOME MEASURE # 03

The neonatal mortality rate per 1,000 live births.

<u>Annual Objective and Performance Data</u>					
	2000	2001	2002	2003	2004
Annual Performance Objective	5.4	5.4	5.7	5.7	5.7
Annual Indicator	5.8	5.8	5.9	5.7	NaN
Numerator	761	780	787	779	0
Denominator	132,286	133,468	133,285	135,831	0
Is the Data Provisional or Final?				Final	Provisional

<u>Annual Objective and Performance Data</u>					
	2005	2006	2007	2008	2009
Annual Performance Objective	5.6	5.6	5.6	5.5	5.5
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

OUTCOME MEASURE # 04

The postneonatal mortality rate per 1,000 live births.

<u>Annual Objective and Performance Data</u>					
	2000	2001	2002	2003	2004
Annual Performance Objective	2.9	2.8	2.6	2.5	2.5
Annual Indicator	2.8	2.7	3.0	2.8	NaN
Numerator	364	361	401	374	0
Denominator	132,286	133,468	133,285	135,831	0
Is the Data Provisional or Final?				Final	Provisional

<u>Annual Objective and Performance Data</u>					
	2005	2006	2007	2008	2009
Annual Performance Objective	2.4	2.4	2.3	2.3	2.2
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

OUTCOME MEASURE # 05

The perinatal mortality rate per 1,000 live births plus fetal deaths.

<u>Annual Objective and Performance Data</u>					
	2000	2001	2002	2003	2004
Annual Performance Objective	8	7.9	7.9	7.8	7.8
Annual Indicator	7.9	8.2	8.2	8.1	NaN
Numerator	1,044	1,102	1,101	1,107	0
Denominator	132,726	133,946	133,766	136,314	0
Is the Data Provisional or Final?				Final	Provisional

<u>Annual Objective and Performance Data</u>					
	2005	2006	2007	2008	2009
Annual Performance Objective	7.8	7.7	7.7	7.7	7.6
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

OUTCOME MEASURE # 06

The child death rate per 100,000 children aged 1 through 14.

<u>Annual Objective and Performance Data</u>					
	2000	2001	2002	2003	2004
Annual Performance Objective	28	24	24	23	23
Annual Indicator	24.2	25.2	22.9	22.9	NaN
Numerator	411	439	405	411	0
Denominator	1,697,501	1,742,603	1,771,400	1,791,408	0
Is the Data Provisional or Final?				Final	Provisional

<u>Annual Objective and Performance Data</u>					
	2005	2006	2007	2008	2009
Annual Performance Objective	22	22	21	21	20
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

STATE OUTCOME MEASURE # 7

Percentage of students who graduate from high school on time.

<u>Annual Objective and Performance Data</u>					
	2000	2001	2002	2003	2004
Annual Performance Objective	70%	71%	72%	73%	74%
Annual Indicator	70.7	71.1	72.7		
Numerator			72,249		
Denominator			99,345		
Is the Data Provisional or Final?				Provisional	

<u>Annual Objective and Performance Data</u>					
	2005	2006	2007	2008	2009
Annual Performance Objective	75%				
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: GA FY: 2006

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Assure early access to prenatal and postpartum care for pregnant women.
2. Promote healthy nutritional behaviors and physical activity among the MCH population.
3. Reduce unintentional and intentional injury.
4. Improve oral health.
5. Promote preconceptional health.
6. Promote healthy behaviorsand reduce risk-taking behaviors among adolescents.
7. Reduce health disparities among the MCH populations.
8. Assure a comprehensive system of age appropriate screening, referral, and follow-up for children from birth through age 21.
9. Assure an adequate MCH workforce.
10. Develop partnerships to support the overall health and well-being of the MCH population.

TECHNICAL ASSISTANCE(TA) REQUEST

STATE: GA

APPLICATION YEAR: 2006

No.	Category of Technical Assistance Requested	Description of Technical Assistance Requested (max 250 characters)	Reason(s) Why Assistance Is Needed (max 250 characters)	What State, Organization or Individual Would You suggest Provide the TA (if known) (max 250 characters)
1.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Enhancing Women's Health services	Assistance is needed in increasing provision of Women's Health services beyond current services, i.e., perinatal, etc.	Not known
2.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Integrating FHB services with other MCH providers	Assistance is needed in working working with WIC and other MCH providers to integrate services across the Division.	Not known
3.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Providing MCH services in a managed care environment.	Assistance is needed on learned steps in other states that have undergone a shift to managed care.	Not known
4.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Maximizing Title V and Title XIX collaboration.	Assistance is needed in assessing Title V and Title XIX gaps and developing an action plan.	Not known
5.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Statewide communications training for MCH staff	Increased workforce development	Andy Goodman
6.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> </u>			
7.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> </u>

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: GA

SP # 1

PERFORMANCE MEASURE:

Degree to which the Georgia Perinatal System has been enhanced to provide a continuum of coordinated services from pre-conceptional to interconceptional care.

STATUS:

Active

GOAL

Improve the quality of reproductive health care through a coordinated perinatal system.

DEFINITION

Attached is a checklist of six (6) milestones that documents implementation and utilization of Georgia Perinatal Guidelines.

Numerator:

N/A

Denominator:

Units: 18 **Text:** Scale

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Office of Regulatory Services Survey Reports and Regional Perinatal System Program Assessments, Regional Planning Reports

SIGNIFICANCE

Improved outcomes for pregnant women and infants have been associated with the implementation of a regional perinatal system which incorporates the efforts of state and local stakeholders. The need to augment the levels of care designated in this perinatal system is critical to the delivery of quality and risk appropriate care. Such reassessment, coordination, and quality management can continue to enhance our perinatal system so that it can be comprehensive, current and fiscally efficient and responsible, yet sensitive to the particular needs of communities as well as individual mothers and babies.

SP # 2

PERFORMANCE MEASURE:

Implementation of a comprehensive approach addressing maternal substance abuse.

STATUS:

Active

GOAL

Assure that the MCH system addresses maternal substance abuse (alcohol, tobacco, and other drugs) at all levels of the pyramid.

DEFINITION

Attached is a checklist of 12 key components reflecting activity at each level of the pyramid.

Numerator:

N/A

Denominator:

N/A

Units: 12 **Text:** Scale

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Georgia Division of Public Health, Family Health Branch data. Data is based on an assessment of progress being made to develop key components required for assessment, assurance, and policy development activities regarding maternal substance abuse.

SIGNIFICANCE

Despite the impact of maternal substance abuse and childhood outcomes as well as the health of the mother herself, MCH agency activities in Georgia have been limited. The realization of the critical nature of the problem in terms of improved outcomes requires a system-oriented approach that incorporates infrastructure, population-based services, enabling services, and direct services. By the end of the current MCH block grant program cycle, 2001, the key elements will be in place.

SP # 3

PERFORMANCE MEASURE:

Degree to which the State addresses prevention of tobacco, alcohol, and other substance abuse by children and adolescents.

STATUS:

Active

GOAL

Develop the capacity to evaluate tobacco, alcohol, and substance usage in middle and high school aged students.

DEFINITION

Attached is a checklist of five (5) characteristics that document the State capacity to address youth use of tobacco, alcohol, and other substances.

Numerator:

N/A

Denominator:

N/A

Units: 15 **Text:** Scale

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Georgia law enforcement data, screening data from youth surveys, assessment data from Department of Juvenile Justice, data from Health Check and PeachCare for Kids health evaluations, data from HEDIS measures of health plans; and Family Health Branch

SIGNIFICANCE

The use of tobacco, alcohol and other substances has its beginnings in early adolescence. Tobacco is a segueaway for substance abusing youth - 87% of persons who use illicit drugs also use tobacco. Tobacco, alcohol and use of other substances are underdiagnosed and undertreated in the adolescent population. Other youth risk behavior with adverse consequences for the individuals and their families and for the community are often associated with substance abuse, especially alcohol. Those activities include, but are not limited to, motor vehicle accidents, juvenile crime, sexual assault, high risk sexual behavior, higher rates of poor school performance and lowered self-esteem.

SP # 4

PERFORMANCE MEASURE:

Degree to which health districts have established integrated MCH plans.

STATUS:

Active

GOAL

Ensure a planned approach to address local MCH issues throughout Georgia.

DEFINITION

Attached is a checklist of eight (8) characteristics that document execution of local MCH planning in every health district.

Numerator:

N/A

Denominator:

N/A

Units: 24 **Text:** Scale

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Georgia Division of Public Health, Family Health Branch data. Data is based on assessment of progress being made in each of the nineteen (19) health districts in implementing comprehensive MCH planning.

SIGNIFICANCE

Traditionally, local health departments provided clinical services dependent on categorical funding. As a broader responsibility for casting public health around the three core functions (policy development, assessment, and assurance) has emerged, the role of local health planning in the design and implementation of a total cohort service delivery system has become evident. This approach to addressing core functions for the MCH population has several critical variables to bring about system-wide, integrated services that address the specific needs of a given locality. This community plan needs to engage a broad array of stakeholders, community partners, and consumers. In Georgia, local public health responsibilities are carried out at the county level (159 counties) grouped into health districts (19 districts) for administrative purposes.

SP # 5

PERFORMANCE MEASURE:

The degree to which risk positive children, birth to age four, are linked to a primary health care provider, referred to one or more community services, and referred to appropriate public health programs.

STATUS:

Active

GOAL

Ensure that children at risk, birth to age four, receive the appropriate health and community services needed to support healthy outcomes.

DEFINITION

Attached is a scoring sheet for each of the three variables that provides an individual and cumulative score for assessing performance over time. For each of the three variables, the score is determined by calculating the percent to which each objective has been met. The resulting percentage is then transferred to a raw score and the three raw scores are added to obtain the final score. The scoring sheet should remain attached.

Numerator:

N/A

Denominator:

N/A

Units: 300 **Text:** Scale

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Children 1st Quarterly Report, submitted by the nineteen (19) health districts. Data completeness quality will depend on accurate reporting by district staff.

SIGNIFICANCE

Recent research on brain development has highlighted the critical importance of the early years of life on long-term child health and development. Children 1st is a population-based system of screening all children at the time of birth and providing community-based follow-up services to those at highest risk for poor health and developmental outcomes. The level of follow-up provided is determined by assessing the risk conditions identified: one or more level 1 socio-environmental risk conditions, one or more level 2 biological/medical risk conditions or both.

SP # 6

PERFORMANCE MEASURE:

Degree to which state and local public health agencies are actively involved in the statewide child fatality review process.

STATUS:

Active

GOAL

Assure that state and local public health agencies actively participate in the child fatality review process to ensure that these reviews are timely and statewide.

DEFINITION

Attached is a checklist of seven (7) characteristics that document public health involvement in the child fatality review process.

Numerator:

NA

Denominator:

Units: 21 **Text:** Scale

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Office of Child Fatality Review

SIGNIFICANCE

In Georgia, legislation regarding child fatality review (CFR) requires interagency sharing and collaboration. Participation of state and local health agencies is critical in ensuring that these reviews are timely and as useful as possible. CFR subcommittees in each of the 159 counties have multi-agency representation and are responsible for reviewing all unexpected and unexplained child deaths. Child fatality reviews can prompt changes in local and/or state policies, procedures, or personnel that reduce the risk of future child deaths. The 1997 report, "The Best of Intentions: An Evaluation of the Child Fatality Review Process in Georgia," describes the CFR process in Georgia as follows: "Although the child fatality review process is supported by hundreds of dedicated professionals statewide, 57 counties with one or more deaths in 1995 did not forward a single review to the Statewide Child Abuse Prevention Panel. Each year, nearly half of eligible deaths statewide are not reviewed." The CFR evaluation sets the following benchmark: "At least 80% of eligible child deaths statewide will be reviewed and reported to the Statewide Child Abuse Prevention Panel."

SP # 7

PERFORMANCE MEASURE:

Degree to which age-appropriate parenting and/or child development information for children grades K-5 is made available to families, schools, caregivers, and providers through a statewide system of collaboration and linkages.

STATUS:

Active

GOAL

Develop and assure that effective parenting information is made available to all families in Georgia with children in grades K-5.

DEFINITION

Attached is a checklist of four (4) characteristics documenting the development and provision of parenting information for the MCH population. Please check the degree to which parenting has been incorporated into the MCH program, using the scale 0-3.

Numerator:

N/A

Denominator:

N/A

Units: 12 **Text:** Scale

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

The State MCH Program

SIGNIFICANCE

Parenting transcends each phase of the MCH system. Health promoting behaviors in children mirror those of their parents. Health risk behaviors in children are also similar to those of their parents and other family members. An adult that cares for a child is the most central and enduring influence on a child's behavior. Promoting effective parenting, particularly in a time when the influence of an extended family is less than in previous generations, assists parents in achieving their children's physical health, mental health and overall well-being. In an integrated coordinated MCH delivery system, functional child and adolescent phases of development with differing parenting requirements have been identified. These phases include: 1) preconception; 2) conception to 1 year; 3) 1-2 years; 4) 2-3 years; 5) 3-5 years; 6) 6-11 years; 7) 12-14 years; 8) 15-17 years; and 9) 18-21 years.

SP # 8

PERFORMANCE MEASURE:

Percentage of children enrolled in the CSHCN Program receiving comprehensive case management services.

STATUS:

Active

GOAL

Establish a comprehensive case management system for children with special health care needs.

DEFINITION

Percent of children with special health care needs enrolled in Title V receiving comprehensive assessment and development of care plan.

Numerator:

Number of children for whom a comprehensive assessment and care plan is developed.

Denominator:

Total number of children served by the program.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Children's Medical Services, programmatic data and other child health database information if unduplicated (i.e., Children 1st, Babies Can't Wait, etc.)

SIGNIFICANCE

Families of children with special health care needs often have complex needs which can only be addressed by a multiplicity of providers. A comprehensive, family-centered case management system can increase access to appropriate services and reduce familial stress. It may also reduce costs associated with duplication and inappropriate devices and services. Case management should work collaboratively with primary care providers in conjunction with existing health care delivery systems and incorporate related case management programs. Expansion of the system is dependent on available funding resources.

SP # 9

PERFORMANCE MEASURE:

Percent of Georgia counties with an active "SAFE Kids" type broad-based injury prevention coalition.

STATUS:

Active

GOAL

Reduce the risk of childhood injury in Georgia.

DEFINITION

Numerator:

Number of counties in which an active coalition exists.

Denominator:

Number of counties in Georgia (159 counties)

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Division of Public Health Injury Prevention Program

SIGNIFICANCE

Injury is a leading cause of childhood morbidity and mortality. Through SAFE Kids, as well as other coalitions, Georgia has demonstrated leadership in community-based, injury prevention activities. These coalitions, often led by public health staff, bring together diverse community groups and individuals to address specific risk factors that may result in childhood injury. Coalitions include public health, law enforcement, schools, parents, the local business community, and civic organizations among others. A major emphasis has been automobile safety, particularly infant care seats and seat belts. However, many other causes of injury, including fire and bicycles, are addressed. Presently, coalitions do not exist in a majority of Georgia counties and, moreover, are not present in several of the larger cities in the state. The effect of these coalitions has been shown to be significant in terms of bringing attention to a variety of injury concerns as well as changing policies and practices which may result in injury.

SP # 10

PERFORMANCE MEASURE:

Asthma-related hospitalizations among children ages 1-19.

STATUS:

Active

GOAL

Reduce asthma morbidity among children, 1-19 years of age.

DEFINITION

Rate of asthma-related hospitalizations in infants and children age 1-19.

Numerator:

Number of hospital discharges, children 1-19 years of age.

Denominator:

State population, 1-19 years

Units: 100000 **Text:** Rate/100,000

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

The Georgia Hospital Inpatient Discharge Data set (GHIDD)

SIGNIFICANCE

A recent survey in Georgia indicates that approximately 11% (210,000) of the state's children birth to 17 years of age have asthma. Among households with children, one in six (16%) has a child with asthma. Asthma is slightly more common among children 5-12 years of age (12%) than children 13-17 (10%) or birth to 4 (9%). Almost one-third of Georgia children with asthma (64,000) have been to the emergency room because of asthma in the last year. Asthma hospitalizations and deaths are highest in the winter. Among children, those birth to 4 years old are the most likely to be hospitalized with asthma. Their hospitalization rate is more than twice as high as any other age group; as children get older, their hospitalization rates decrease. Source: "Asthma in Georgia, 2000." American Lung Association of Georgia, Inc. & Georgia Department of Human Resources, Division of Public Health, Chronic Disease Branch, Family Health Branch & Epidemiology Branch, 2000.

SO # 7

OUTCOME MEASURE:

Percentage of students who graduate from high school on time.

STATUS:

Active

GOAL

Increase the percentage of students who graduate from high school on time.

DEFINITION

The percentage of students entering the ninth grade who graduate from high school four years later.

Numerator:

One minus (sum of dropouts for year x, x-1, x-2, x-3)

Denominator:

Sum total of number of graduates in year X plus the total number of dropouts for years x, x-1, x-2, x-3

Units: 100 **Text:** percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Georgia Department of Education data This measure is most reliable when migration into or out of a school district is minimal, as this statistic can artificially inflate or deflate the "true" graduation rate. Even when there is little migration, the on-time graduation rate underestimates the total population of students who graduate from high school. Some students take longer than four years to graduate, while others return and finish their degree (including the GED) at a later age.

SIGNIFICANCE

Graduating from high school is closely linked to being a productive adult, earning a higher income than those who do not graduate. Employment opportunities for high school dropouts are few and characterized by low pay, instability and limited avenues for advancement. Virtually every health status outcome measure correlates higher income with health well-being. This is true both in terms of the health of the individual who graduates from high school as well as their children. Public health, through preventive health activities as well as access to primary health care and needed specialty care, impacts high school graduation rates by assuring that children are ready and able to learn.

NEW STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: GA

SP # 1

PERFORMANCE MEASURE:

Percentage of pregnant women who abstain from smoking.

GOAL

To reduce prevalence of smoking during pregnancy in order to reduce low birth weight births and improve birth outcomes in Georgia.

DEFINITION

Percent of women who report that they abstained from smoking during pregnancy.

Numerator:

Percent of women surveyed who report that they did not smoke during their pregnancy.

Denominator:

Total number of women surveyed.

Units: 100 **Text:** 1

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 27-6
Increase smoking cessation during pregnancy

DATA SOURCES AND DATA ISSUES

Pregnancy Risk Assessment and Monitoring System (PRAMS).

SIGNIFICANCE

Smoking during pregnancy increases the risk of a low birth weight birth and other poor birth outcomes. Low birth weight and prematurity is the leading cause of infant mortality in Georgia.

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------

SP # 2

PERFORMANCE MEASURE:

Percentage of high school students who participated in physical activity for at least 20 minutes on 3 or more of the past 7 days

GOAL

To reduce obesity in the Georgia population by increasing physical activity in youth.

DEFINITION

Numerator:

High school students surveyed who report participating in physical activity for at least 20 minutes on 3 or more of the past 7 days.

Denominator:

Total number of high school students surveyed.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 22-7

Increase the proportion of adolescents who engage in vigorous physical activity that promotes cardiorespiratory fitness 3 or more days per week for 20 or more minutes per occasion.

DATA SOURCES AND DATA ISSUES

The Georgia School Health Survey (YRBS).

SIGNIFICANCE

Obesity is an increasing problem in Georgia and a major cause for morbidity and mortality. Increasing physical activity is one of Georgia's four key strategies for reducing obesity.

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------

SP # 3

PERFORMANCE MEASURE:

Rate of hospitalizations due to unintentional injuries among children ages one through age five.

GOAL

To reduce injuries among MCH populations.

DEFINITION

Rate of hospitalizations due to unintentional injuries among children ages from one year through five years of age per 100,000 population.

Numerator:

Number of unintentional injury related hospitalizations among children ages one year through five years of age.

Denominator:

Total number of children ages one year through five years of age.

Units: **Text:** 0

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 15-14 (Developmental)
Reduce nonfatal unintentional injuries.

DATA SOURCES AND DATA ISSUES

Georgia Hospital Discharge Data Set and Census Population Estimates

SIGNIFICANCE

Unintentional injuries are the leading cause of death and a major cause of morbidity among young children and all MCH populations.

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------

SP # 4

PERFORMANCE MEASURE:

Percent of Medicaid and PeachCare (S-CHIP) enrolled children who received preventive oral health services.

GOAL

To improve oral health among children in Georgia.

DEFINITION

Numerator:

The number of children enrolled in Medicaid (less than 21 years of age) or Peachcare (less than 19 years of age) who receive a preventive dental service.

Denominator:

The total number of children enrolled in Medicaid (less than 21 years of age) or Peachcare (less than 19 years of age).

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 21-12

Increase the proportion of low-income children and adolescents who received any preventive dental service during the past year.

DATA SOURCES AND DATA ISSUES

Medicaid and Peachcare (S-CHIP) billing data.

SIGNIFICANCE

Access to preventive dental health services is a significant factor in overall oral health. Even with dental coverage through Medicaid and Peachcare, low-income children are less likely than their higher income counterparts to receive preventive dental health services.

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------

SP # 5

PERFORMANCE MEASURE:

Percent of women of reproductive age who consume at least 400mcg of folic acid daily

GOAL

Reduce the occurrence of spina bifida and other neural tube defects in Georgia.

DEFINITION

Percent of women of reproductive age (18-44) who report that they take a supplement containing at least 400mcg of folic acid daily.

Numerator:

Number of women ages 18-44 surveyed who report taking a multivitamin or other supplement with 400mcg of folic acid daily.

Denominator:

Total number of women ages 18-44 surveyed.

Units: 100 **Text:** 1

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 16-16

Increase the proportion of pregnancies begun with an optimum folic acid level

Objective 16-15

Reduce the occurrence of spina bifida and other neural tube defects.

DATA SOURCES AND DATA ISSUES

Behavioral Risk Factor Surveillance System (BRFSS). The folic acid optional module will only be included in the GA BRFSS every other year or every third year.

SIGNIFICANCE

Approximately 50% of pregnancies affected with NTDs may be prevented with adequate consumption of folic acid from 1 month before conception through the first 3 months of pregnancy.

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------

SP # 6

PERFORMANCE MEASURE:

Percentage of repeat pregnancies among adolescents aged 15-17-years-old

GOAL

To reduce repeat pregnancies among Georgia's adolescents aged 15-17-years-old.

DEFINITION

Numerator:

Number of repeat pregnancies to females ages 15 to 17.

Denominator:

Total number of pregnancies to females ages 15 to 17.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 9-7

Reduce pregnancies among adolescent females.

DATA SOURCES AND DATA ISSUES

Georgia Vital Statistics.

SIGNIFICANCE

The teenage pregnancy rate in Georgia is among the highest in the country. Most teen pregnancies are not planned and occur outside marriage. Especially among younger teens, teen pregnancy is considered a public health and societal problem. One of the focus areas for Georgia pregnancy prevention programs is to reduce rate of repeat pregnancies among adolescents.

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------

SP # 7

PERFORMANCE MEASURE:

Ratio of SIDS and SUID among African American infants to white infants.

GOAL

To reduce the racial disparity in Georgia due to infant mortality and SIDS.

DEFINITION

Sudden Unexplained Infant Death (SUID) cases involve infant deaths that occur outside of a doctor's care without an immediate explanation of their cause while SIDS refers to the sudden death of a child under 1 year of age that remains unexplained even after a thorough case investigation.

Numerator:

The number of infant deaths due to SIDS and SUIDS.

Denominator:

The total number of live births.

Units: **Text:** 0

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 16-1h

Reduce deaths from sudden infant death syndrome (SIDS).

DATA SOURCES AND DATA ISSUES

Georgia vital statistics and Child Fatality Review data.

SIGNIFICANCE

SIDS is the leading cause of death during the postneonatal period (29 to 365 days). African American infants are twice as likely to die of SIDS in Georgia as white infants.

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------

SP # 8

PERFORMANCE MEASURE:

Percentage of Medicaid children who have had a developmental screening

GOAL

To improve early detection of delays in children and improve child health and well-being for identified children.

DEFINITION

Measure under development.

Numerator:

Denominator:

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

To be determined

SIGNIFICANCE

Many children with behavioral or developmental disabilities are missing vital opportunities for early detection and intervention. The American Academy of Pediatrics (AAP) and the American Academy of Neurology recommend that all infants and young children be screened for developmental delays periodically in the context of office-based primary care.

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------

SP # 9

PERFORMANCE MEASURE:

Percentage of MCH local level staff that receive basic Public Health training.

GOAL

To ensure that MCH county and District staff understand the core functions of Public Health.

DEFINITION

Measure under development.

Numerator:

Denominator:

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 23-11

Increase the proportion of State and local public health agencies that meet national performance standards for essential public health services.

Objective 23-8

Increase the proportion of Federal, Tribal, State, and local agencies that incorporate specific competencies in the essential public health services into personnel systems.

DATA SOURCES AND DATA ISSUES

To be determined.

SIGNIFICANCE

As public health professionals face new challenges in the 21st century, it is imperative to ensure a prepared public health workforce that functions at an advanced level of competence. By taking action to train the workforce in the critical skills of public health and pursuing our goals, we can enhance Georgia's public health infrastructure and ability to respond to new challenges

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------

SP # 10

PERFORMANCE MEASURE:

The extent to which partnerships that support Early Childhood Comprehensive Systems are effective.

GOAL

To ensure effective collaborations and partnerships that support families and communities to assure that their children are healthy and ready to learn when they start school.

DEFINITION

Numerator:

Denominator:

Units: Text: 0

HEALTHY PEOPLE 2010 OBJECTIVE

16-23

Increase the proportion of Territories and States that have service systems for children with special health care needs.

DATA SOURCES AND DATA ISSUES

To be determined.

SIGNIFICANCE

The improvement of MCH outcomes requires a system-oriented partnership-based approach that incorporates infrastructure, population-based services, enabling services, and direct services. Traditionally, local health departments provided clinical services dependent on categorical funding. As a broader responsibility for casting public health around the three core functions (policy development, assessment, and assurance) has emerged, the role partnerships and collaboration in the design and implementation of a total cohort service delivery system has become critical. An effective collaborative plan needs to engage a broad array of stakeholders, community partners, and consumers.

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------

SO # 1

OUTCOME MEASURE:

Rate of Type 2 diabetes among African American and Hispanic Medicaid population ages one through 21.

GOAL

To reduce Type 2 diabetes related morbidity among minority children in Georgia.

DEFINITION

Measure under development.

Numerator:

Denominator:

Units: **Text:** 0

HEALTHY PEOPLE 2010 OBJECTIVE

Objective 5-2

Prevent diabetes.

Objective 19-3

Reduce the proportion of children and adolescents who are overweight or obese.

DATA SOURCES AND DATA ISSUES

Medicaid data.

SIGNIFICANCE

Type 2 Diabetes is an increasing problem among youth particularly in African American and Hispanic children in Georgia. Monitoring of hospitalizations is important to monitor this trend and to address primary prevention of type 2 diabetes in youth and secondary prevention that leads to the need for hospitalization.

OBJECTIVE

2006	2007	2008	2009	2010
------	------	------	------	------
